

HEALEON REGENERATIVE HEALING CASCADE

Healeon Medical offers innovative medical devices, clinical expertise and support for point-of-care treatments within the regenerative healing cascade.

Healeon Medical's advanced products and accessories facilitate harvesting an array of concentrated cell composites, including:

- PLATELET-RICH PLASMA
- STROMAL VASCULAR FRACTION
- BONE MARROW ASPIRATE CONCENTRATE
- ADIPOSE TISSUE CONCENTRATE
- EDUCATION AND HANDS-ON TRAINING

CENTRIcyte™ 1000

Maximize cell counts and viability from the smallest of samples with ease. The **CENTRIcyte™1000** is an all-in-one device that simplifies the isolation of cells from all tissue sources and consistently generates 50 to 60% higher yields when compared to competitors using the same sample volume.

- Semi-automatic process eliminates the need for specially-trained laboratory personnel
- Allows for simple, consistent reproducible results
- Completely closed system
- Pre-Set programs allow for easy user interface and selection
- Proprietary CENTRIkit specimen kits meet any clinician's adipose and bone marrow processing needs
- On-site Training and Support

Regeneris Medical was created to advance the science and research of biocellular therapy. The team at Regeneris has 20+ years of research experience performing clinical trials and reporting to the FDA.

Regeneris's Services Include:

- Malpractice Insurance Coverage
- GMP procedures and policies to meet Good Tissue Practices
- IRB Research Services
- Hands-on Protocol Training
- On-going clinical support and protocol updates
- Central Database Management
- Automated patient tracking and data collection
- Data Publication
- Regulatory Updates
- Forum for collaboration between network of physicians
- Digital and Print Marketing Services

HEALEON HD PRP

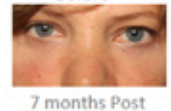

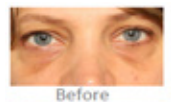

Healeon HD PRP is simple, potent and versatile. Provides the clinician with a platform to process and capture optimal platelet concentrates for a variety of options and volumes.

- Flexibility with broad range of sizes (15-50mL)
- Can achieve various concentrations from 2x-4.3x
- Simple to use
- Higher volume per draw = best value per yield
- Reproducible concentrates from consistent platelet capture
- Balanced pH due to low hemtocrit / removes 99% contaminating RBCs

Healeon Amnio is 100% PURE Amnion Human Tissue Allograft, derived from amniotic fluid designed to maximize tissue regeneration.

- Optimize your treatments with a full spectrum of over 250 growth factors and signaling proteins
- Rich in hyaluronic acid, collagen and secretomes
- Sterile filtered
- Amnio enables cell adherence & growth in the ECM
- Maximizes cell signaling and cell migration for tissue regeneration for aesthetic & orthopedic applications

ALMI™ is an all-natural rejuvenation process that combines the power of licensed protocols with professional marketing, developed to help practitioners introduce cellular based aesthetics to their patients.

- Protocols for ALMI Face, Hair and Hands
- Increase Patient Referrals with ALMI
- National PR / Advertising: TV segments, publications, etc
- Social Media Campaigns
- Professional Marketing Concierge
